ABOUT ME

I'm a driven CSE student at St. Joseph's Institute of Technology, passionate about software development and data science. I've completed certifications in Deep Learning Fundamentals, Machine Learning, and SQL & Relational Databases, and successfully built projects like an Online Shopping Website using HTML, CSS, JavaScript, PHP, and MySQL. I'm always eager to learn new technologies, as seen from my coursework in Python for Data Science and C programming, and I thrive on solving challenges with creativity and determination!

EDUCATION

2024 – 2028
St. Joseph's Institute of Technology

Bachelor of Engineering in Computer Science

Building a strong technical foundation in Artificial Intelligence and Machine Learning through rigorous coursework, data-driven projects, and practical experience with algorithms, neural networks, and statistical modeling.

EXPERIENCE

June 2025 – July 2025
 CodeBind Technologies

Web Development & Full Stack Intern

- Gained hands-on experience in frontend and backend development using HTML, CSS, JavaScript, and PHP.
- Worked on real-time web projects including responsive design and dynamic content handling.
- Collaborated with a development team to build and optimize full-stack applications.

SKILLS

- Data Visualization
- Python
- Machine Learning (ML)
- Deep Learning
- **Foundational Skills**: Logical thinking, Problem-solving, Team Collaboration, Communication.

COURSEWORK & CERTIFICATIONS

- Data Science Foundation Certification – **Infosys Springboard**
- SQL and relational database-101-**CognitiveClass.ai**
- Python for Data Science-**NPTEL**
- deep learning with TensorFlow-**CognitiveClass.ai**
- Accelerating Deep Learning with GPU-**CognitiveClass.ai**
